Fowey Boat Trips

Travel up the River Fowey by boat.

Between Easter and October various boat trips are available from the Town Quay in Fowey:

River Trips - This is usually a 45 minute trip around the harbour taking in the sights from the docks up river down to the harbour mouth with the boatman providing information on what you can see. These trips do not need to be booked in advance but operate throughout the day.

Lerryn and Lostwithiel Trips - These trips are dependent on the high spring tide so only run for a few days about every two weeks. The trips last about three hours and will only visit either Lerryn or Lostwithiel in a trip. You will usually have just under an hour to explore once you arrive. The boatmen display boards on Town Quay advertising when these trips run and normally they need to be booked in advance.

Guided River Trips - There are two trips available both lasting about three hours with around one hour ashore. There are only a few of these trips each year and advance booking for these trips is essential, the dates and contact details can be found in our events guide.

The Wind in the Willows River Trip to Lerryn is accompanied by a Blue Badge Guide who will provide information not only on the subject of the trip but also the sights along the way.

The Stannary Cruise to Lostwithiel a trip up the river to Lostwithiel where you will be met by a Blue Badge Guide for a tour of the town.
